

CMMI V2.0

Official CMMI V2.0 Training is a pre-requisite to become a CMMI Associate and an Appraisal Team Member (ATM) to participate in a Benchmark Appraisal.

Foundations of Capability:

This training gives you a basic understanding of the core content of the new CMMI V2.0

Building Development Excellence:

This training builds upon your existing knowledge of CMMI V2.0 to provide a basic understanding of the CMMI Development (CMMI-Dev) view of the model

Learning Objectives

- Connect the CMMI model with business value
- Use CMMI as a tool for improving performance
- Describe the components of CMMI v2.0 and how they work together
- Discuss each of the core practice areas in the model
- Know where to find information in the model
- Know how to get started!
- Interpret CMMI-DEV v2.0, to serve effectively on an appraisal or process improvement team
- Know what it takes to be CMMI Maturity Level 2, 3, and beyond

Who Should Attend

- Anyone interested in improving business performance
- Anyone heavily involved in CMMI V2.0-based improvement
- Candidate CMMI V2.0 appraisal team members
- People interested in becoming a Certified CMMI Associate or Certified CMMI Professional
- People who may ultimately want to take supplemental or more advanced courses
- Anybody else interested in learning more about CMMIv2.0: executives, managers, developers

What will you GET

- **Online model viewer access** for 30 days and ability to download a personal copy of the model
- **CMMI Associate exam credit** and certification as a CMMI Associate upon passing the exam, passing the exam is now a pre-requisite for CMMI V2.0 Appraisal Team Members (ATMs)
- **Bound student materials** including all CMMI Institute slides
- **A certificate of completion**
